

Azure CSP and CSP+

Simplify your Azure journey with Ultima's Cloud Solution Provider (CSP) and CSP + Programmes

Cloud is revolutionising the way we do business and realising the benefits is a key focus for our Azure experts at Ultima.

Introducing Ultima Azure CSP - FREE

The benefits of IaaS, PaaS and SaaS are self-evident and with Microsoft Azure CSP and Ultima, you gain a powerful combination of technical support, financial transparency, and strategic insights, to help maximise the value of your Azure investment.

Enhanced Support - Azure CSP offers 24x7 break-fix support, providing assistance and prompt issue resolution, ensuring maximum uptime and operational efficiency.

Centralised Billing - Simplified financial management with consolidated billing, providing a clear view of Azure usage and costs for easier tracking and budgeting.

Advisory Services - Expert guidance to optimise your Azure deployment, enhance security, and drive efficiencies, helping you make informed decisions and maximise Azure ROI.

Streamlined Azure Experience - Our expertise in Azure and CSP provides a seamless, hassle-free public cloud experience, allowing you to focus on your core business.

Upgrade to Ultima Azure CSP+

With a 25 year Microsoft relationship, Ultima hold 5 out of the 6 key Microsoft Partner designations across Security, Modern Work and Azure (Infrastructure, Data & AI and Digital and App Innovation) and have been awarded Microsoft Azure Modernisation and Management Planning (AMMP) specialisation.

Ultima Azure CSP+ includes all CSP services plus Ultima IA-Cloud Optimise and Service Requests.

Cost Optimisation - Powered by Ultima IA-Cloud - our Cloud Management Platform - we analyse potential cost saving measures, which can result in improved efficiencies.

Streamlined Service Requests - Simplifies the process of requesting and managing Azure services, minimising administrative overhead, and improving overall service delivery.

Implement - Provides a pathway to making Azure-related recommendations in accordance with vendor best practice, utilising Ultima's in-house cloud experts.
