

Revolutionise endpoint management with Ultima and Microsoft Intune Suite

Explore the full power of Copilot for Security with our Microsoft Intune Suite Pilot

Why choose Microsoft Intune Suite with Ultima?

Advances in generative AI are transforming how we work and how we protect our crucial data. At Ultima, we are enabling organisations to leverage the cutting-edge, generative AI capabilities of Microsoft Copilot, without compromising security or creating additional management overheads, through the capabilities of Microsoft Intune Suite.

As a Microsoft partner for over 32 years – and one that holds all six of the key Microsoft Partner Designations across Security, Modern Work and Azure – our expert team are uniquely placed to deliver the best insights in an immersive pilot programme tailored to your unique business needs.

Learn more in our Microsoft Intune Suite Pilot

To help you maximise the value to your organisation, Intune offers the Microsoft Intune Suite extension. The Microsoft-funded engagement helps you witness the transformative power of Microsoft Intune Suite and Ultima expertise firsthand.

Delivered by Ultima in partnership with Microsoft, we'll explore the simplified management, enhanced security, cost-efficiency and productivity boost of Microsoft Intune Suite and work together on piloting these capabilities in your own environment for selected users.

The benefit to you

This dedicated Ultima workshop is designed to provide deeper insights on Microsoft Intune Suite so you can fully understand how, together, you can:

Improve user productivity on any device without compromising overall security.

Empower IT with easier and secure Windows and device management.

Unify endpoint management solutions and workflows in one place.

Reduce complexity for IT and SecOps.

Ensure device health and compliance by mitigating threats and protecting corporate data.

Do more with less by consolidating vendors with Microsoft.
