Public Sector Frameworks

A quick reference guide to Ultima's position on UK Public Sector Frameworks - July 2025

Ultima

Public Sector Frameworks

Procurement Services

Originally developed by Kent County Council, it offers a route to market for IT services for over 15,000 customers in 85 countries. In addition to IT consultancy, it covers a broad spectrum, including ICT Managed Services, and Software and Associated Services, making it an easy and compliant route to cover most IT products.

HealthTrust Europe (HTE)

As 1 of 11 suppliers on the Complete IT 3 (ComIT3) framework, we can provide IT solutions to 1000+ customers, including Integrated Care Boards (including all NHS Trusts), as well as other participating organisations e.g. Central and Local Gov, Education, Housing Associations and EMS.

TEPAS2

The largest and broadest overall framework covering hardware, software and services, plus direct award available via a catalogue function. Verticalised lots are now available, integrating the previous Education Technology Framework, allowing NHS and Education customers to have their own niche lot.

YPO and NEPO

Owned by 13 local government authorities, YPO and NEPO is one of the largest public sector buying organisations, providing Network Connectivity and Telecommunication Solutions. Ultima are one of 11 suppliers for Lot 4 - Smart City and IoT Technologies, and 22 suppliers on Lot 5 - Cyber Security Solutions.

G-Cloud 14

G-Cloud offers customers a catalogue of cloud related software, services and hosting solutions. Our entire range of cloud-related services have been accepted onto G-Cloud and are available to buy direct. For the full list visit: https://www.applytosupply.digitalmarketplace.service.gov.uk/g-cloud/search?q=Ultima

Cyber Security Services 3

A Dynamic Purchasing System run by Crown Commercial Services, customers can buy through a supplier registration portal. This incorporates all cyber security services, including Security Operations Centres (SOC), consultancy, advice, audits, health checks, data destruction, DR and threat intelligence.

Automation Marketplace

Services, customers can buy through a supplier registration portal. Primarily covers the whole scope of Ultima's automation GTMs, including in-house services like IA-Connect and licensing. Can include training, strategy, design and problem solving.

Digital Workplace Solutions 2

Open to NHS and other public sector organisations, the framework covers a broad range of IT infrastructure, hardware, software, and related services—including servers, storage, networking, virtualization, security, consultancy, training, and maintenance—designed to support diverse and evolving technology needs.

Public Sector Frameworks

Crown Commercial Service
Supplier

Artificial Intelligence (AI)

For customers requiring discovery or consultancy services related to AI, implementation and support of AI systems, end-to-end partnerships and any relevant AI technologies. Includes AI software apps, machine learning to help with data analytics, intelligent virtual assistants and intelligent personal assistants.

Crown Commercial Service
Supplier

AV Consultancy & Commissioning

Transform rooms into spaces which make best use of AV services, while making sure anyone can use computer systems and software in their workspace. Design meeting spaces which allow colleagues to equally take part in the meeting (even if attendance is virtual), create collaboration zones and integrate AV technologies.

Procurement Assist

ICT Hardware & Software

This Dynamic Purchasing System covers all aspects of Hardware and Peripheral supply, including, standing and bespoke software solutions. The DPS may be used by NHS Trusts, Social Housing Providers, Local Authorities, Blue Light Services, Education, Charities and all other contracting authorities that are located in the UK.

Procurement Assist

IT & Cyber Security Services

The DPS process access to a range of IT and Cyber Security services including but not limited to hardware and software consultancy, data services, Internet services, computer support and consultancy, network services, computer audit and testing, as well as back-up and catalogue conversion.
